GHP Recognises Ladulaas Clinical Trials in the Healthcare & Pharmaceutical Awards 2018

United Kingdom, 2018 – GHP has awarded Ladulaas Clinical Trials, Clinical Trials Experts of the Year 2018 - Nordic Region in the Healthcare & Pharmaceutical Awards 2018.

Now in its third year, the Healthcare & Pharmaceutical Awards returns to celebrate the contributions made by organisations and individuals operating within the world's most vital industries.

It is our desire to reward those who demonstrate dedication to furthering the advancements within healthcare and pharmaceutical services and products. For this reason, we have developed a merit-based judging process providing entrants with the opportunity to share their proudest moments, and greatest achievements within the healing arts.

Ladulaas Clinical Trials offers drug tests as well as studies of medical inventions and food with health effects. As part of its quest for excellence, Ladulaas has had four audits from pharmaceutical companies and one inspection from Läkemedelsverket (the Medical Products Agency), all of whom have given the clinic high ratings. This offers clients and participants alike the peace of mind of knowing that they are in safe hands when they work with this dynamic and innovative clinic.

Discussing the success of their winners, Katherine Benton, Awards Coordinator commented: "It has been a true pleasure to showcase the exceptional dedication that each and every one of my deserving winners has shown over the past 12 months. Clinical trials are an important aspect of the healthcare and pharmaceutical space, and as such it is with great pleasure that I recognise this unique and dedicated firm. Furthermore, it is my pleasure to offer Ladulaas Clinical Trials my congratulations and wish them the very best of luck for the future."

GHP prides itself on the validity of its awards and winners. The awards are given solely on merit and are awarded to commend those most deserving for their ingenuity and hard work, distinguishing them from their competitors and proving them worthy of recognition.

To learn more about our award winners and to gain insight into the working practices of the "best of the best" in the health and pharma industries, please visit our website (<http://www.ghp-news.com/>) where you can access the winners supplement.
